

Integrated Sourcing and Manufacturing

We offer the automotive, general engineering and aerospace markets fully integrated manufacturing solutions for small, critical tolerance components at lowest cost.

Commitment to excellence is a core value of the Hampson group. Hampson India strives to maintain world-class levels of quality throughout all activities.

The application of advanced quality management systems and hardware together with SPC discipline ensures quality levels are consistently maintained to the highest industry standards.

General engineering components

Fuel Injection System parts, Hydraulic application pump parts, and other specialist applications

Capabilities Include:

- ◆ CNC Turning, Milling, grinding, drilling & honing
- ◆ Vertical Milling Centers
- ◆ Turned Milled Centers
- ◆ 5 Axes machining
- ◆ Specialist finishing capabilities
- ◆ Lean Practices
- ◆ Cellular manufacturing
- ◆ Magnetic Particle Inspection
